Add a Menu Called Format, In which there is a sub item called Company Name.

This Menu will Open a Dialog Box Contains a Tab control with 4 pages:

•Font: contain 3 radio button representing "Times New Roman", "Arial", "Courier"

•Size: contain 3 radio button representing "16", "20", "24"

•Color: contain a button that open ColorDialogBox

•Text: contains 2 Textboxes one hold the old value and the other hold a new value

When user click OK button all new selection is applied, and when he select CANCEL button, No changes

Note: When the user open the dialogBox, he must see the control selection as it is in the Application.
